

EXECUTIVE SUMMARY

The Intelleges Compliance & Supply Chain Intelligence Platform

THE CHALLENGE

Organizations with complex supply chains face escalating compliance burdens:

\$14M – \$40M Average cost per non-compliance event	40+ Regulations FAR, DFARS, ITAR, CMMC, ESG, BAA, and more
---	--

THE SOLUTION: INTELLEGES

Intelleges is a cloud-based B2B platform for supply chain compliance and risk management with **25 years of proven performance** in highly regulated industries including Aerospace & Defense, Healthcare, Manufacturing, and Energy.

Core Capabilities:

- **42+ Pre-Built Compliance Protocols** — ITAR, BAA, Conflict Minerals, CMMC, Reps & Certs, and more
- **Dynamic Questionnaire Engine** — Smart logic, conditional questions, automated reminders
- **PODS (Purchase Order Documentation)** — Automated FAR-compliant procurement files
- **Integrated Approval Workflows** — Responses trigger review before completion
- **Call Center Verification** — Human support to verify supplier responses
- **AI-Powered Analytics** — Predictive risk scoring and pattern identification

PROVEN RESULTS

600% Productivity increase at Honeywell Aerospace	80%+ Supplier response rates on data collection	Zero Audit findings for Battelle (Supplier of Year 2023)
---	---	--

KEY DIFFERENTIATORS

Smart Logic Questionnaires

Conditional questions adapt based on responses. If a supplier changes from "small business" to "large business," previously answered questions (like service-disabled veteran status) are automatically invalidated and re-routed.

Automated Approval Workflows

Certain responses trigger mandatory review before completion. Enterprise users see "Pending Approval" status until compliance personnel approve—no guesswork, no gaps.

PODS: Audit-Ready Documentation

FAR-compliant sole-source justifications with all required categories electronically enforced. No need to remind procurement what's required—the system validates automatically.

Part-Number Iteration

Protocols like Buy American Act, Conflict Minerals, and Product Conformance require part-specific responses. The system supports questionnaire iteration across unlimited part numbers.

INDUSTRIES SERVED

Aerospace & Defense	Healthcare & Pharma	Manufacturing	Energy & Utilities
Consumer Electronics	Financial Services	Construction	Logistics

25-YEAR TRACK RECORD

2000	Founded by John Betancourt — pioneering web-based procurement compliance
2003	First major DoD contract with Honeywell Aerospace (\$3M/year)
2018	PODS launch — automated internal procurement documentation
2023	"Supplier of the Year" recognition by Battelle
2025	25 years of excellence — serving global clientele across 8 industries

42+ Pre-Built Compliance Protocols

From ITAR to ESG, from FAR to Conflict Minerals — one platform covers it all.
