

SERVICE OVERVIEW

Collect Supplier Data & Documentation

Automate compliance data collection at scale

The Challenge

Global compliance requires collecting vast amounts of data and documents from suppliers — certifications, representations, country-of-origin declarations, quality records, and more. Traditional methods rely on spreadsheets and email, leading to version control issues, missed deadlines, and incomplete responses. For large enterprises managing hundreds or thousands of suppliers, tracking all required documentation manually is nearly impossible.

The Intelleges Solution

Intelleges transforms supplier data collection through automated digital workflows and smart questionnaires. The platform deploys standardized forms for any compliance need — FAR Reps & Certs, Buy America content, conflict minerals declarations, ESG assessments — with built-in logic and drill-down questions that adapt based on responses.

Key Capabilities

- **Configurable Digital Questionnaires:** Deploy standardized forms with built-in logic that drill down to part-number level detail when needed. Templates are maintained by Intelleges as regulations change, ensuring questions are always current.
- **Automated Reminders & Tracking:** Schedule recurring data collection (annual, quarterly, or rolling) with automatic reminders at configurable intervals. Dashboard views show completion status for each supplier and flag late responses.
- **Secure Supplier Portal:** Suppliers access a user-friendly portal to submit information and upload documents. No more confusing PDF forms or back-and-forth emails.
- **Multi-Tier Collection:** Cascade questionnaires down the supply chain to Tier 2 and Tier 3 suppliers, collecting origin data, certifications, and compliance attestations at every level.

Results & Outcomes

- ✓ One aerospace firm cut compliance report assembly time by over 200%
- ✓ Defense contractors eliminated 500+ labor hours annually spent chasing paper
- ✓ Near-100% on-time supplier response rates through automated reminders
- ✓ Cycle times for annual certifications reduced from months to weeks
